

Fuller & Thaler Behavioral Micro-Cap Equity Fund

"The crazy thing is thinking humans always act logically."

- Dr. Richard Thaler

Principal, Fuller & Thaler Asset Management
2017 Nobel Prize® Winner

*The Big Short (2015)*¹

At an individual stock level, we search for events related to **insider activity, earnings surprises,** and other news that demonstrate investor misbehavior.

Our **over-reaction** strategy identifies situations where investors over-react to bad news and losses (e.g., panic).

Our **under-reaction** strategy identifies situations where investors under-react to good news (e.g. not pay attention).

Investment Objective

The fund is a U.S. micro-cap equity mutual fund that seeks long-term capital appreciation with similar risk levels and characteristics to its benchmark, the Russell Microcap® Index.

Looks for companies with:

- significant insider buying or stock repurchases (over-reaction)
- significant earnings surprises (under-reaction)

Invests in domestic stocks with market capitalizations similar to those included in the Russell Microcap® Index.

Over- and Under- reaction

...to historical, negative/positive information

Investment Process

Using principles of behavioral finance, the Fuller & Thaler Behavioral Micro-Cap Equity Fund capitalizes on the market's **over-reaction** to negative information regarding a company's future prospects and **under-reaction** to positive new information. The fund draws from Fuller & Thaler's more than 25 years of experience in analyzing events that suggest investor misbehavior.

If behavioral biases are present in a stock, we then proceed to fundamental analysis of the company. If the company has solid fundamentals consistent with our long-term investment objectives, the fund buys the stock.
